PROJECTS

Projects & Technical Experience

Developed multiple small-scale projects using C/C++, Python, Java, HTML, CSS, Flask, MySQL, and RESTful APIs, showcasing a solid foundation in software development, web technologies, and database integration.

IoT Device Projects

Developed small Internet of Things (IoT) projects using ESP32 and Arduino, writing Python and C/C++ code to control LEDs, sensors, and LCD displays. Integrated components with buttons, distance sensors, and created basic real-time feedback system

ACHIEVEMENTS

Completed several small IoT projects using Arduino and ESP32, integrating sensors, buttons, and LCDs with Python and C++
Completed several small projects using C/C++, Python, Java, HTML, and CSS
Consistently practiced problem-solving and algorithm challenges to sharpen coding skills and improve logical thinking.
